

SUMMER MATH CHALLENGE: MATH FACTS RISING 2ND GRADE

Dear Grammar School Families,

Research from the Harvard Graduate School of Education found that scholars lose an average of 2.6 months of math learning over the summer, more than any other subject, and across all socioeconomic backgrounds (Shafer, 2016, Harvard GSE Usable Knowledge). A big part of why this happens is that math facts fade when they go unpracticed. Cognitive scientist Daniel Willingham explains that "what is required to make these processes shrink, that is, to get them to become automatized" is simply practice (*Why Don't Students Like School?*, p. 115), and that "continued practice" is what protects against forgetting (p. 117). Lack of automaticity of basic facts causes memory to be used up on computation instead of problem solving. Due to this information, we have created *Summer Math Challenge: Math Facts*.

The packet is designed for 12 weeks of practice, five days per week, two pages per day. Scholars who complete two pages each day will finish the packet before the first day of school. Each daily session should take approximately 10 minutes. Scholars should set a personal time goal and then work to beat it. Parents should check each completed sheet for accuracy. Speed and accuracy together are the target.

PACKET CONTENTS:

- Pages 1–21: Single Digit Addition — No Regrouping
- Pages 22–32: Single Digit Addition — With Regrouping
- Pages 33–42: Single Digit Subtraction
- Pages 43–53: Addition & Subtraction — Mixed Single Digit
- Pages 54–76: 2-Digit Addition — No Regrouping
- Pages 77–95: 2-Digit Addition — With Regrouping
- Pages 96–108: 2-Digit Subtraction — Some Regrouping
- Pages 109–120: 2-Digit Addition & Subtraction — Mixed

This packet is required and will be collected at the start of the school year as a math grade. Two pages a day keeps the work light and manageable. Scholars should stay on top of the work rather than let it pile up.

Summer Math Challenge: Math Facts is designed to keep those facts sharp so that scholars return next school year ready to think, not just calculate. We look forward to seeing the growth that consistent math fact practice makes possible.

Sincerely,

Jessica Gombert
Grammar School Headmaster

Marcus Gabriel
Grammar School Assistant Headmaster

2026-2027 SUMMER MATH CHALLENGE: MATH FACTS COMPLETION LOG

Use this log to keep track of completed math practice days. The dates are provided as a reference to help you stay on pace. If you complete two pages per day, five days per week, you will finish the packet before the first day of school. Check off each day and stay on track.
